The Mission

The mission of ASIAN Inc. is the empowerment of the Asian American Community to achieve social equality by reducing dependency creating and expanding access to opportunities in the areas of business development, housing and education.

ASIAN Inc. is a non-profit technical assistance and research organization that works to strengthen the infrastructure of the Asian American Community and other minorities in Northern California to assist in their physical, economic and social development and eliminate systemic dependencies. To empower a community is to reject dependency as a permanent state and requires the mobilization of not just the individual, but a collective of business, enterprise and social representation to affect change.

For 37 years, ASIAN Inc. has responded to the emerging needs of the Asian American Community by providing opportunities for growth, enrichment, economic success, homeownership and financial counseling. ASIAN Inc sees no floors or ceilings on the opportunities of the future. By continually expanding opportunities and leveraging resources to Asian Americans and other minorities, we can motivate and affect a new generation of people who will never know the term "disadvantaged."
